

SHAIK MAHAMMAD SAJID

maraballikwt@gmail.com | +91 9177917648 | github.com/skmsajid | linkedin.com/in/shaik-mahammad-sajid

PROFESSIONAL SUMMARY

B.Tech Computer Science student with hands-on experience in web development and Data Structures & Algorithms. Proficient in Python with a strong interest in Django and backend development. Experienced in building web applications using Django and Django REST Framework. Solved 600+ DSA problems using Python and developed practical projects to apply programming and web development skills.

EDUCATION

- B.Tech CSE | RGUKT RK Valley, AP CGPA: 8.93 | (2023 – Present)
- Pre-University Course (PUC) | RGUKT RK Valley, AP CGPA: 9.95 | (2021 – 2023)
- Class X (SSC) | ZPHS Boys, Badvel, AP CGPA: 10.0 | (2021)

SKILLS

- Programming Languages: Python
- Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms using Python
- Web Technologies: HTML, React.js, Django, Django REST Framework
- Database: MySQL
- Tools: Git, GitHub, VS Code

PROJECTS

Fix My Village

Technologies: React, Django, Django REST Framework, MySQL | [GitHub](#)

- Developed a civic issue reporting application where villagers can report problems related to roads, garbage, electricity, and drainage.
- Implemented three user roles – Villager, Worker, and Admin – with role-based access to different application features.
- Implemented issue management where Admins can review reported issues, assign them to Workers, and update their status from Pending to Assigned, In Progress, and Resolved.
- Added separate dashboards and functionality for Villagers, Workers, and Admins based on their roles in the issue management process.
- Implemented authentication and role-based permissions using Django to control access based on the user's role.

Friends Cart

Technologies: HTML, CSS, JavaScript, Django, MySQL | [GitHub](#)

- Developed an e-commerce web application with user registration, login, profile management, and product browsing across Healthcare, Fashion, Electronics, Grocery, and Beauty categories.
- Created a custom user model with Django's AbstractUser and implemented session-based authentication.
- Implemented a cart to add, update, and remove products, with coupon application during checkout.
- Implemented coupon validation with minimum order amount and maximum discount limits, and managed product and order data using Django models and MySQL.
- Added user feedback and rating functionality and used Django Admin to manage application data.

ACHIEVEMENTS

- Solved 600+ DSA problems on LeetCode using Python (Profile: [Shaik_Mahammad_Sajid](#)).
- 1st place, Debugging Challenge – Aadhya Technical Events (fast and accurate error resolution).
- Runner-up, Coding Contest – Aadhya Technical Events (strong algorithmic problem-solving).

CERTIFICATIONS

- Python Certification – HackerRank
- Bharat Scouts and Guides – Tritiya Sopan
